6. Creative & Media Services	12	12. Start a Project	21

1. How We Work

Autom8 builds custom software for Philippine businesses: websites your customers see, and the systems your team runs every day. Our creative team adds the design, video, social media, game, and 3D, VR, and AR work that brings a brand to life. Nothing is a template with your logo dropped in. Every build starts from how your business actually works, and our systems come with an admin portal so your team can update them without waiting for a developer.

- **No cost to start:** For websites and systems, after a free 30-minute consultation, we design your real pages for free. You pay only when you decide to build, and if you walk away there is nothing to pay.
- **Unlimited UI revisions:** Once you commit to a website or system build, design and layout revisions are unlimited until launch. Creative work includes 2 rounds of revisions per item.
- **Clear pricing:** Each project is quoted at a fixed price for an agreed scope, so the number you sign is the number you pay. Monthly and transaction-fee services are stated up front.
- **Built to last:** Every website and system launches on modern, secure cloud infrastructure and can be looked after month to month under the Autom8 Infinite Plan.
- **Yours to use:** You own your brand, content, data, and design files outright. On final payment you receive a perpetual licence to the software with the source code included, and you can keep using it even if a monthly plan with Autom8 ends. Free systems on a transaction-fee plan are the exception: they run while the plan is active (see Section 10).

2. Services at a Glance

Code	Service	Starting Price (PHP)	Est. Timeline
WEBSITES			
A1	Business Website	₱18,000	1 to 2 weeks

3. Websites

A1 Business Website		from ₱18,000 one time
For businesses that need a credible, fast website that explains what they do and turns visitors into calls, messages, and inquiries. DELIVERABLES & SCOPE - Up to 5 custom-designed pages (for example Home, About, Services, Gallery, Contact) - Responsive design for phones, tablets, and desktops - Inquiry form delivered to your inbox - Google Maps, click-to-call, and social media links - Basic on-page SEO, sitemap, and Google-ready page titles - Domain connection and SSL (HTTPS) TECHNICAL SPECIFICATIONS - Next.js (React) and Tailwind CSS - Vercel cloud hosting with a global CDN - Email delivery through Resend NOT INCLUDED - Admin portal for editing content (see A2) - Copywriting, photography, and logo design (see M4) - Domain registration and renewal fees Price depends on: number of pages, custom sections, and languages.		
TIMELINE 1 to 2 weeks	PAYMENT 50% on signing, 50% on launch	BEST FOR Clinics, shops, services, professionals

A2 Website with Admin Portal		from ₱25,000 one time
For businesses whose website changes often, or that take bookings and inquiries, and want staff to manage it all without a developer.		
DELIVERABLES & SCOPE - Everything in A1, with custom pages for your services, rooms, treatments, or listings - Secure admin portal with staff logins - Self-service editing of text, photos, prices, and FAQs, with a preview before anything goes live - Inquiry and booking request inbox with status tracking - Photo uploads with automatic resizing - Link or QR code to an existing booking system, if you use one		TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Tailwind CSS - PostgreSQL database (Neon, serverless) - Vercel hosting and Vercel Blob file storage - Role-based admin access NOT INCLUDED - Online payments and checkout (see A3 or C1) - Copywriting and professional photography - Third-party booking system subscriptions
Price depends on: number of pages, the content staff can edit, and booking or inquiry flows.		
TIMELINE 2 to 4 weeks	PAYMENT 50% on signing, 50% on launch	BEST FOR Resorts, clinics, schools, agencies

A3 Custom E-Commerce Storefront		from ₱45,000 one time
For brands that sell on Lazada or Shopee and want their own store, so more of each sale stays with the business and the customer relationship stays theirs.		
DELIVERABLES & SCOPE - Product catalog with photos, variants, filters, and stock shown on every product - Slide-over cart and checkout - Courier delivery priced by province and zone, or in-store pickup - Online payments: QR Ph, GCash, Maya, and credit or debit cards, verified automatically - Admin portal for orders, packing slips, refunds, stock counts, prices, and sales analytics - Order confirmation and shipping emails - Product pages ready for Google, with price data		TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Tailwind CSS - PostgreSQL (Neon) with Vercel hosting - PayMongo payment gateway with signed webhooks - Automated jobs for unpaid orders and stock release NOT INCLUDED - Payment gateway transaction fees (billed by the provider) - Courier accounts and shipping costs - Product photography and catalog data entry beyond the first load
Price depends on: number of products and variants, delivery rules, and payment methods.		
TIMELINE 4 to 6 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Skincare, retail, food, specialty brands

A4 Website Rescue & Redesign		from ₱12,000 one time
For businesses with a website that is slow, broken, outdated, or locked with a developer who no longer answers. We take it over, fix what matters, and give it a modern look. DELIVERABLES & SCOPE - Audit of speed, mobile layout, security, and broken links - Redesign of up to 5 key pages in your brand - Content moved over from the old site - Speed and mobile fixes, HTTPS, and Google-ready page titles - Recovery of domain and hosting access where you hold the rights TECHNICAL SPECIFICATIONS - Rebuilt on Next.js (React) with Vercel hosting - Or fixed in place when a rebuild is not worth it NOT INCLUDED - New features beyond the old site (see A2 or A3) - Recovery of accounts you cannot prove ownership of - Fees owed to a previous provider Price depends on: size and condition of the old site, and whether it is rebuilt or fixed in place.		
TIMELINE 1 to 3 weeks	PAYMENT 50% on signing, 50% on launch	BEST FOR Businesses with an old or neglected website

4. Business Systems

B1 CRM & Sales Pipeline		from ₱30,000 one time
For teams whose leads and customers live in phones, notebooks, and Messenger threads. Every inquiry, follow-up, and deal in one place, so nothing slips through when someone is busy or on leave. DELIVERABLES & SCOPE - Customer and lead records with full history of calls, messages, and orders - Sales pipeline with stages you define, from inquiry to closed deal - Follow-up reminders and task lists per staff member - Inquiry capture from your website forms - Quotation and proposal tracking - Sales reports by staff, source, and period, exportable to Excel TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Node.js - PostgreSQL (Neon) with Vercel hosting - Role-based access per team or branch - Email notifications through Resend NOT INCLUDED - Bulk SMS or paid messaging services - Import of old records beyond one structured import - Paid third-party CRM licences Price depends on: number of pipelines, teams or branches, and records to import.		
TIMELINE 3 to 5 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Sales teams, agencies, real estate, distributors

B2 HRIS (HR Information System)		from ₱30,000 + ₱50 to ₱70 per employee / month
For companies still keeping 201 files in folders and leave requests on paper. Employee records, attendance, and leave in one system, with approvals that do not wait for someone to find the form.		
DELIVERABLES & SCOPE - Employee 201 files: personal data, government IDs, contracts, and documents - Attendance and daily time records (DTR), with import from biometric exports - Leave filing, approval routing, and leave balances - Overtime and schedule requests with approvals - Employee self-service portal for leave, requests, and records (payslips when payroll is added) - HR reports: headcount, attendance, tardiness, leave usage - Hosting, backups, updates, and support included in the per-employee fee		TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Node.js - PostgreSQL (Neon) with Vercel hosting - Access controls for sensitive employee data, in line with the Data Privacy Act (RA 10173) - Works on phones for employee self-service
		NOT INCLUDED - Payroll computation (available as an add-on, quoted per company) - Biometric devices and direct device integration - Government filing and remittance on the company's behalf
Price depends on: number of departments, leave and approval rules, and attendance sources.		
TIMELINE 4 to 6 weeks	PAYMENT Build 40% / 40% / 20%; monthly: ₱50 per employee (50 or more), ₱70 per employee (under 50), min ₱1,500	BEST FOR Companies with 20 to 300 employees

B3 Business Admin System		from ₱30,000 one time
For businesses running their daily operations on spreadsheets, group chats, and paper. One system for the work, the approvals, the stock, and the numbers, with the manual steps and the re-typing taken out.		
DELIVERABLES & SCOPE - Your process mapped into screens: records, statuses, and hand-offs - Request forms with routing to the right approver - Stock counts, movements, and history per item and location - Low-stock warnings and printable restock lists - Dashboards for what needs attention today - Sales, usage, and operations reports by day, week, and month - Reconciliation views that flag mismatches - Staff accounts with roles, permissions, and an activity log - Printable forms and exports to Excel or CSV		TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Node.js - PostgreSQL (Neon) with Vercel hosting - Works in any browser; installable on phones and tablets - Imports from existing spreadsheets and statements
		NOT INCLUDED - Migration of old records beyond one structured import - Barcode scanners, scales, or other hardware - Accounting or medical records modules - Direct integration with closed third-party systems without an API - Native iOS or Android apps
Price depends on: number of processes, approval steps, locations, and reports.		
TIMELINE 4 to 6 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Retail, distribution, warehousing, service teams

B4 Client, Member & Training Portal**from ₱10,000** one time

For businesses that want clients, members, or staff to log in, see their status, and learn, instead of emailing and calling for updates.

DELIVERABLES & SCOPE

- Secure login for clients, members, or trainees
- Personal dashboard with status and documents
- Training modules, quizzes, and progress tracking, if needed
- Admin side to manage users and content

TECHNICAL SPECIFICATIONS

- Next.js (React), TypeScript
- PostgreSQL (Neon) with Vercel hosting
- Can be added to any A2, B, or I system

NOT INCLUDED

- Writing or recording of course content
- Video hosting beyond standard limits

Price depends on: number of user types, documents, and training modules.

TIMELINE
2 to 3 weeks

PAYMENT
50% on signing, 50% on launch

BEST FOR
Training, membership, client services

B5 Digital Checklists & Inspections**from ₱30,000** one time

For engineering, security, and property teams still doing rounds and inspections on paper clipboards. Every checklist done on a phone, with photos, time stamps, and a signature, so you know what was checked, by whom, and when.

DELIVERABLES & SCOPE

- Custom checklist templates for your inspections, rounds, and maintenance
- Checklists filled on a phone or tablet, with photos, notes, and signatures
- Scheduled rounds with alerts when a check is late or missed
- Failed items turned into follow-up tasks with an owner and due date
- Supervisor review and approval of completed checklists
- History and reports by site, area, staff, and date, exportable to PDF or Excel

TECHNICAL SPECIFICATIONS

- Next.js (React), TypeScript, Node.js
- PostgreSQL (Neon) with Vercel hosting
- Role-based staff access
- Works on any phone browser; installable as an app
- QR codes per area or equipment to open the right checklist

NOT INCLUDED

- Phones, tablets, and other hardware
- IoT sensors or direct connection to building equipment
- Native iOS or Android apps

Price depends on: number of checklist templates, sites, and approval steps.

TIMELINE
3 to 5 weeks

PAYMENT
40% / 40% / 20%

BEST FOR
Engineering, security, facilities, and condo teams

5. Industry Solutions

Complete systems for specific industries, most built from ones we have already designed and tested, then adapted to your workflow and brand.

11 Booking & Reservation System		₱0 build fee + 2% per booking
For barbershops, salons, nail salons, and spas, and for sports and leisure venues like pickleball and badminton courts, virtual golf bays, and studios, taking bookings through Messenger, phone calls, and a notebook. Customers book online; the front desk sees every booking in one place. No upfront cost: Autom8 builds it free and earns 2% of completed bookings.		
DELIVERABLES & SCOPE • Booking page with your services, courts or bays, prices, and staff • Online booking by service, staff, court, or bay, with live availability by time slot • Open play sessions with limited slots and sign-ups (for example pickleball open play) • Front-desk calendar for walk-ins, check-ins, and no-shows • Optional online deposits through GCash, Maya, QR Ph, or card • Email confirmations, reminders, and customer history • Reports on bookings, revenue, court or bay usage, and sales per staff • Hosting, updates, backups, and support included		TECHNICAL SPECIFICATIONS • Next.js (React), TypeScript, Node.js • PostgreSQL (Neon) with Vercel hosting • Works on phones, tablets, and computers • PayMongo for online deposits NOT INCLUDED • Payment gateway fees • SMS reminders (available as an add-on) • Staff commission and payroll computation • Hardware such as door locks, lights, or golf simulators, and BIR official receipts or POS accreditation
TIMELINE 2 to 4 weeks	PAYMENT 2% of completed bookings, billed monthly (minimum ₱500)	BEST FOR Salons, barbershops, nails, spas, courts, virtual golf bays, studios

12 School Management System		from ₱60,000 one time
For private schools and colleges where enrollment, grades, clearance, and billing pass between offices on paper. One system with a portal for every office, student, and teacher. A working demo is available to try during your consultation.		
DELIVERABLES & SCOPE • Online enrollment and student records • Faculty gradebook and report cards • Clearance routing across offices • Billing, assessments, and cashier collections • Document requests (TOR, certificates, good moral) • Student, faculty, registrar, cashier, and admin portals • Audit log of every change to grades and payments		TECHNICAL SPECIFICATIONS • Next.js (React), TypeScript, Node.js • PostgreSQL (Neon) with Vercel hosting • Role-based staff access • Works on phones for students and parents NOT INCLUDED • Learning management (online classes, modules) • DepEd or CHED report submission on the school's behalf • Migration of old records beyond one structured import
Price depends on: number of offices, grade levels, and billing rules.		
TIMELINE 6 to 10 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Private schools, colleges, training centers

13 Barangay Management System (BMIS)		from ₱35,000 one time
For barangays still keeping resident records in logbooks and issuing clearances by hand. Residents, documents, grievances, and the service queue on one record. A working demo is available to try during your consultation.		
DELIVERABLES & SCOPE • Resident and household profiling • Barangay clearance, indigency, and certificate issuance with printing • Blotter and grievance records with case status • Service queue for walk-in requests • Citizen portal for online document requests • Reports for population, documents issued, and cases		TECHNICAL SPECIFICATIONS • Next.js (React), TypeScript, Node.js • PostgreSQL (Neon) with Vercel hosting • Role-based staff access • Access controls in line with the Data Privacy Act (RA 10173) NOT INCLUDED • ID card printers and other hardware • Encoding of existing paper records (quoted separately) • Integration with national government systems
Price depends on: number of document types, offices, and records to set up.		
TIMELINE 4 to 6 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Barangays and local government units

14 Laboratory Results System		from ₱45,000 one time
For clinics and diagnostic laboratories where results are typed, printed, and claimed in person. Sample intake to result release in one system, with a portal where patients collect their own results. A working demo is available to try during your consultation.		
DELIVERABLES & SCOPE • Patient and sample intake with tracking numbers • Test catalog, pricing, and packages • Result encoding with reference ranges • Three-stage review and release, so no result leaves early • Printable result forms with signatures • Patient portal for secure online result release • Reports on tests, turnaround time, and revenue		TECHNICAL SPECIFICATIONS • Next.js (React), TypeScript, Node.js • PostgreSQL (Neon) with Vercel hosting • Role-based staff access • Access controls for health data in line with the Data Privacy Act (RA 10173) NOT INCLUDED • Direct connection to lab analyzers and machines • DOH licensing and accreditation requirements • Electronic medical records beyond lab results
Price depends on: number of tests, review steps, and branches.		
TIMELINE 5 to 8 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Diagnostic labs, clinics, testing centers

15 Accounting & BIR Dashboard		from ₱35,000 one time
For finance teams who rebuild the same reports in Excel every month. Sales, expenses, bank reconciliation, and BIR form figures in one dashboard built for Philippine practice. A working demo is available to try during your consultation.		
DELIVERABLES & SCOPE - Income, expense, and cash flow dashboards - Bank reconciliation views that flag mismatches - BIR form figures prepared for review (for example 2550Q, 1701Q, 2307) - TIN and supplier records with withholding tax codes - Monthly and quarterly reports, exportable to Excel		TECHNICAL SPECIFICATIONS - Next.js (React), TypeScript, Node.js - PostgreSQL (Neon) with Vercel hosting - Role-based staff access - Imports from bank statements and spreadsheets
		NOT INCLUDED - BIR Computerized Accounting System (CAS) accreditation - Filing and payment of taxes on the client's behalf - Bookkeeping and accounting services
Price depends on: number of companies, bank accounts, and BIR forms.		
TIMELINE 4 to 6 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Finance teams, accounting firms, SMEs

16 Laundry Shop System		₱0 build fee + 2% per transaction
For laundry and dry-cleaning shops tracking orders on paper tickets. Every load from drop-off to pickup, with prices, payments, and daily sales in one screen. No upfront cost: Autom8 builds it free and earns 2% of the sales recorded in the system.		
DELIVERABLES & SCOPE - Order intake with claim tickets and pricing per kilo or per item - Order status from washing to ready for pickup - Customer records and order history - Payments and balances per order - Daily and monthly sales reports - Hosting, updates, backups, and support included while subscribed		TECHNICAL SPECIFICATIONS - Works in the browser on a tablet or computer - Receipt and claim ticket printing
		NOT INCLUDED - Printers and other hardware - SMS notifications (available as an add-on) - BIR official receipts and POS accreditation
TIMELINE 2 to 3 weeks	PAYMENT 2% of recorded sales, billed monthly (minimum ₱500)	BEST FOR Laundry and dry-cleaning shops

17 Dealer & Statement Reconciliation

from **₱30,000** one time

For dealers and distributors who check supplier statements line by line against their own records. Upload the statement and the system shows what matches and what does not.

DELIVERABLES & SCOPE

- Upload of supplier statements and your own records
- Automatic matching of deliveries, invoices, and payments
- Mismatch list with amounts and dates
- Running balances per account
- Reports exportable to Excel

TECHNICAL SPECIFICATIONS

- Next.js (React), TypeScript, Node.js
- PostgreSQL (Neon) with Vercel hosting
- Role-based staff access
- Reads Excel, CSV, and text-based PDF statements

NOT INCLUDED

- Scanned or image-only statements without readable text
- Direct connection to supplier systems without an API
- Accounting and audit services

Price depends on: number of statement formats, suppliers, and accounts.

TIMELINE
4 to 6 weeks

PAYMENT
40% / 40% / 20%

BEST FOR
Fuel dealers, distributors,
franchisees

18 Condo & Property Management System

from **₱60,000** one time

For condominium and property admin offices handling permits, move-ins, and requests through forms, logbooks, and group chats. Residents file online; the admin approves, and the guard and engineering teams see it instantly.

DELIVERABLES & SCOPE

- Resident and unit owner portal with unit and tenant records
- Work permits and renovation permits with admin approval and conditions
- Move-in and move-out requests with clearance and approval routing
- Gate passes and delivery passes shared with the guard station
- Amenity reservations (function rooms, pools, courts)
- Repair and maintenance requests tracked to completion
- Visitor registration and logs
- Announcements and notices to all or selected units
- Admin dashboard and reports by tower, floor, and request type

TECHNICAL SPECIFICATIONS

- Next.js (React), TypeScript, Node.js
- PostgreSQL (Neon) with Vercel hosting
- Role-based staff access
- Works on phones for residents, guards, and engineering staff
- Access controls in line with the Data Privacy Act (RA 10173)

NOT INCLUDED

- Association dues billing and accounting (available as an add-on, quoted separately)
- Access cards, turnstiles, CCTV, and other hardware
- Payment gateway fees, if online payments are added

Price depends on: number of towers and units, request types, and approval steps.

TIMELINE
6 to 8 weeks

PAYMENT
40% / 40% / 20%

BEST FOR
Condominiums, townhouse
communities, property managers

6. Creative & Media Services

M1 Social Media Management		₱5,000 per month
For businesses that know they should post regularly but never have the time. A steady, on-brand presence on the platforms your customers actually use, planned a month ahead. You send the photos and videos; we turn them into finished posts.		
DELIVERABLES & SCOPE - Monthly content calendar approved before posting 12 posts a month on Facebook and Instagram (TikTok available), designed by Autom8 from your photos and videos: graphics, carousels, and short video edits - Captions, hashtags, and scheduling - Replies to comments and messages during business hours - Page setup or clean-up in the first month - Post boosting set up and monitored when you choose to boost - Weekly report: reach, engagement, followers, and top posts 2 rounds of revisions per post		TOOLS & FORMATS - Meta Business Suite and TikTok for scheduling - Graphics in Adobe Photoshop, Illustrator, and Canva - Square, portrait, and story sizes for each platform NOT INCLUDED - Boost and ad budgets (paid by you, directly to the platform) - Photo and video shoots (you provide the photos and videos) - Google search ad campaigns (see C3) - Influencer or talent fees
Price depends on: ₱5,000 covers 2 platforms and 12 posts a month; more platforms or posts are quoted separately.		
TIMELINE First posts within 1 week	PAYMENT Billed monthly in advance	BEST FOR Clinics, cafes, shops, local brands

M2 2D & 3D Modeling		from ₱3,000 per asset
For brands, architects, and developers who need products, spaces, or characters shown before they exist, or shown better than a photo can.		
DELIVERABLES & SCOPE 2D illustrations and vector assets 3D product models for catalogs, packaging, and ads - Architectural and interior visualizations 2D and 3D characters and mascots - Textured models with rendered stills - Files ready for print, web, or a game engine 2 rounds of revisions per asset		TOOLS & FORMATS - Blender, Adobe Illustrator, and Photoshop - Delivered as PNG, JPG, SVG, OBJ, FBX, or GLB - Renders up to 4K resolution NOT INCLUDED 3D printing and physical prototypes - Rigging and animation, unless quoted (see M3) - CAD drawings for manufacturing
Price depends on: complexity and detail. Guide: 2D asset from ₱3,000, 3D product model from ₱5,000, architectural render from ₱8,000 per view.		
TIMELINE 3 to 10 working days per asset	PAYMENT 50% on signing, 50% on delivery	BEST FOR Product brands, real estate, architects

M3 Motion Graphics & Video Editing		from ₱3,000 per finished minute
For businesses that need short videos that stop the scroll and explain the offer in under a minute: animated from scratch, or edited from the footage you already have.		
DELIVERABLES & SCOPE • Video editing (₱3,000 per minute for the first 3 minutes, then ₱500 per minute): your footage cut, color graded, subtitled, and set to royalty-free music • Motion graphics (₱8,000 per minute): promo, explainer, and product videos animated from scratch with text, icons, logos, and product shots • Animated logos, titles, and lower thirds • Versions sized for Reels, TikTok, YouTube, and Facebook • 2 rounds of revisions per video		TOOLS & FORMATS • Adobe After Effects and Premiere Pro • Delivered as MP4, up to 4K • Vertical, square, and widescreen formats
NOT INCLUDED • Filming and photo shoots (you provide the footage) • Character or illustrated animation (quoted separately) • Talent, model, or voice-over fees • Paid stock footage beyond standard libraries		
How it is billed: per minute of finished video, rounded up to the next 30 seconds, with a minimum of 1 minute per video. A 45-second edited video is ₱3,000, a 10-minute edited video is ₱12,500, and a 90-second motion graphics video is ₱12,000. Extra platform sizes of the same video are included.		
TIMELINE 1 to 3 weeks per video	PAYMENT 50% on signing, 50% on delivery	BEST FOR Product launches, clinics, events, ads

M4 Graphic Design & Animation		from ₱1,500 per design
For businesses whose posters, menus, and posts are made in a hurry and look it. Designs that look like one brand, from the logo to the tarpaulin.		
DELIVERABLES & SCOPE • Logos and brand identity kits (colors, fonts, usage guide) • Social media graphics, posters, flyers, and menus • Tarpaulins, signage, and packaging labels • Presentation decks and company profiles • Animated posts, GIFs, and 2D character animation • Editable source files on request • 2 rounds of revisions per design		TOOLS & FORMATS • Adobe Illustrator, Photoshop, and After Effects • Print-ready PDF and web-ready PNG, JPG, or GIF • Brand kit delivered as a PDF guide
NOT INCLUDED • Printing and production costs • Trademark search and registration • Paid stock photo or font licences		
Price depends on: type of design and number of sizes or formats. Guide: social post from ₱1,500, brand identity kit ₱22,000.		
TIMELINE 2 to 5 working days per design; brand kits 2 weeks	PAYMENT 50% on signing, 50% on delivery	BEST FOR New brands, restaurants, events, SMEs

M5 2D & Pixel Game Development		from ₱50,000 per game
For brands, schools, and creators who want a playable game: a promotional game for a campaign, a learning game for students, or an original title.		
DELIVERABLES & SCOPE - Game design document agreed before production - Pixel art or 2D art: characters, tilesets, backgrounds, and UI - Gameplay programming, levels, and scoring - Sound effects and music (licensed or original) - Builds for web browsers, Windows, and Android - Promotional and educational games for brands and schools - Playtesting and bug fixing before release		TOOLS & FORMATS - Godot or Unity game engines - Aseprite for pixel art - HTML5, Windows, and Android builds NOT INCLUDED - Console publishing (Nintendo, PlayStation, Xbox) - App store developer fees (Google Play, Apple) - Online multiplayer servers - Game marketing and community management
Price depends on: number of levels and characters, art detail, and platforms.		
TIMELINE 6 to 12 weeks	PAYMENT 40% / 40% / 20%	BEST FOR Brand campaigns, schools, indie creators

M6 3D Mapping, VR & AR		To be discussed per project
For brands, developers, schools, and event organizers who want people to step inside a space or see a product in their own room. Projection-mapped shows, virtual tours, VR experiences, and AR effects people can try on their phones.		
DELIVERABLES & SCOPE AR effects: branded TikTok and Snapchat filters for launches and campaigns Web AR product viewer: customers place your product in their room from a link, no app needed 3D virtual tours: walk-through tours of properties, showrooms, resorts, and campuses, built from floor plans or 360 photos 3D projection mapping: animated content mapped onto buildings, stages, or products for events and launches VR experiences: interactive walkthroughs, training, and brand experiences for VR headsets 2 rounds of revisions per item		TOOLS & FORMATS - Blender for 3D models and scenes - Unity or Unreal Engine for VR - TikTok Effect House and Snapchat Lens Studio for AR filters - WebXR for AR and tours that open in a browser NOT INCLUDED - Projectors, VR headsets, and other hardware, and their setup on site - On-site 360 photo or 3D scan capture (you provide photos or floor plans, or quoted separately) - Instagram and Facebook AR filters (Meta closed its effects platform to outside creators) - Venue, permits, and event production
How it is priced: every project is quoted after a consultation, based on the size of the space, number of products or scenes, animation length, and interactivity.		
TIMELINE 1 to 8 weeks depending on the project	PAYMENT Under ₱30,000: 50% / 50%; ₱30,000 and above: 40% / 40% / 20%	BEST FOR Real estate, events, retail brands, schools, tourism

M7 NFC & RFID Smart Business Cards		10 cards free with builds of ₱30,000 and above
For owners and teams who hand out business cards that end up in a drawer. A premium card that opens your contact details, website, or booking page with one tap on a phone, so the details are saved instead of lost.		
DELIVERABLES & SCOPE - Card design in your brand, front and back - Printed on high-quality, thick cardboard stock with an NFC chip inside - One tap opens the link you choose: your digital contact card, website, booking page, or social page - QR code printed on the card for phones without NFC - The link can be changed later without reprinting the cards - Works as an RFID card for attendance or check-in with Autom8 systems that use a card reader 10 cards free with any website or system build of ₱30,000 and above; additional cards quoted per order		TOOLS & FORMATS - NFC chips readable by most iPhone and Android phones - Standard business card size - Contact card that saves straight to the phone (vCard)
NOT INCLUDED - PVC, metal, or wood cards (quoted separately) - Card readers and other hardware for RFID attendance or access - Delivery outside Metro Manila (billed at cost)		
How it is priced: 10 cards are free with any website or system build of ₱30,000 and above. Additional cards, and all other orders, are quoted based on quantity, design, and finish.		
TIMELINE 1 to 2 weeks	PAYMENT 10 free with builds of ₱30,000 and above; other orders paid in full on approval of the design	BEST FOR Owners, sales teams, agents, clinics, events

7. Add-Ons & Growth Services

C1 Automations & Integrations		₱1,000 to ₱2,500 per feature
Features added to any Autom8 build so the system runs itself: fewer manual steps, fewer missed messages.		
EXAMPLES Small (₱1,000): QR codes that update automatically, a scheduled reminder, a simple export Medium (₱1,750): a set of automatic emails, a daily owner summary, a scheduled job such as releasing unpaid orders Large (₱2,500): online payments added to an existing system, or a connection to a third-party service through its API		NOT INCLUDED - Subscription or usage fees of the connected service - AI chat assistants (see C4)
		TIMELINE 2 to 5 working days per feature

c2 Local SEO Setup & Optimization		₱5,000 one time
For businesses that do not show up when nearby customers search on Google. We set up the listings and pages that help you appear in local results and on Google Maps. DELIVERABLES & SCOPE - Google Business Profile setup or clean-up for each branch - Google Search Console setup and sitemap submission - Local keyword targeting for your services and area - On-page improvements to titles, descriptions, and content - A starting report with what to track over the next 90 days FORMAT - Works with any Autom8 website - Organic ranking usually takes 60 to 90 days to mature NOT INCLUDED - Guaranteed rankings or positions - Ongoing monthly SEO and content writing - Paid advertising (see C3) Price depends on: number of branches or locations.		
TIMELINE 1 week setup	PAYMENT Paid in full on delivery	BEST FOR Clinics, shops, and services with a physical location

c3 Geo-Targeted Google Search Ads		₱3,000 setup + ₱2,500 / month management
For businesses that need customers this week, not in 90 days. Ads that appear when people nearby search for what you offer, with a budget you control. DELIVERABLES & SCOPE - Campaign setup targeted to a set radius around your business - Keyword research for high-intent searches such as "near me" queries - Ad copy and call or message extensions - Conversion tracking for calls, messages, and inquiries - Monthly management: bids, keywords, and wasted spend removed - Monthly report on spend, clicks, and leads FORMAT - Google Ads account in the client's name - Ad spend from ₱250 a day, paid directly to Google NOT INCLUDED - Ad spend (paid directly to Google) - Guaranteed number of leads or sales - Landing pages beyond your existing website Price depends on: number of campaigns and target areas.		
TIMELINE 3 to 5 days to go live	PAYMENT Setup on signing; management billed monthly in advance	BEST FOR Clinics, services, and shops competing locally

C4 AI Chat Assistant		from ₱8,000 setup
For businesses answering the same customer questions all day. An assistant on your website that answers from your own products, services, and FAQs, and hands over to staff when it should. DELIVERABLES & SCOPE • Chat assistant on your website, trained on your content • Answers about products, services, prices, and hours • Hand-off to Messenger, phone, or an inquiry form • Conversation log so staff can review what was asked • Updated when your content changes (under the Infinite Plan) TECHNICAL SPECIFICATIONS • Built on current AI models from Anthropic or OpenAI • Added to any Autom8 website or system NOT INCLUDED • AI usage fees, billed monthly at cost by the AI provider • Medical, legal, or financial advice to customers Price depends on: amount of content and number of hand-off channels.		
TIMELINE 1 to 2 weeks	PAYMENT 50% on signing, 50% on launch	BEST FOR Clinics, shops, resorts, schools

C5 Systems Friction Audit		₱3,000 one time
For businesses that know something is slow but not what to build first. We map how the work moves today, find where it stalls, and recommend what to fix. The fee is credited in full toward any build. DELIVERABLES & SCOPE • Interviews with the owner and the staff who do the work • Map of the current process and the tools it passes through • List of bottlenecks ranked by cost in time and money • Recommended system, scope, and starting price • A written report you keep, whether or not you build FORMAT • On-site in Metro Manila or by video call NOT INCLUDED • The build itself • Site visits outside Metro Manila (travel billed at cost) Price depends on: number of departments and processes reviewed.		
TIMELINE 3 to 5 working days	PAYMENT Paid in full upfront, credited to any build	BEST FOR Businesses deciding what to automate first

8. Autom8 Infinite Plan EXCLUSIVE PIONEER PRICE

The monthly retainer that keeps a launched website or system reliable, usable, secure, and current for years. Your team keeps editing it themselves; Autom8 looks after everything underneath and makes the changes you would rather hand off.

Area	Included Every Month (from ₱3,500 / month)
Reliability	24/7 uptime monitoring with alerts, error monitoring of the live site, checks that payments and emails go through, and bug fixes on a set timetable.
Security	Security patches and software updates, weekly backups with a monthly restore test, HTTPS and domain renewal watched, admin access reviewed.
Usability	Up to 5 small change requests a month, speed and mobile checks, and help for the owner and staff. A small request is a change to existing text, images, prices, or the layout of an existing page that takes under an hour. Unused requests do not carry over; anything larger is quoted before work starts.
Longevity	Platform kept current, Google search health checks, a monthly health report, and advice on what to improve next.

Severity	What It Means	Fixed Within
Critical	The website, checkout, or system is down; payments fail because of the website; or customer data or security is at risk.	4 hours
Major	An important feature is broken or giving wrong results, but the business can keep operating with a workaround.	1 day
Minor	A small or cosmetic issue that does not stop anyone from using the system.	3 days

Support hours: 8:00 AM to 8:00 PM, Monday to Sunday, Philippine time. Fix times count from when a report is received within support hours; a report sent outside them counts from 8:00 AM the next day. Autom8 still acts sooner on critical issues whenever it can.

The ₱3,500 pioneer rate is locked in for as long as the plan stays active, for clients who sign before March 31, 2027. Outages on a third-party provider's side (payment gateways, banks, booking platforms) are outside Autom8's control; Autom8 confirms the cause within 4 hours and applies a workaround where possible.

9. Build Tiers

Every software build (the A, B, and I services) can be taken at one of three tiers. Each ships a complete custom build. They differ on one thing only: how many rounds of functionality change are included after the system goes live. One round is a single written list of changes, submitted together and delivered together, to features the system already has (fields, screens, rules, reports, and workflows). A new module or a new kind of feature is quoted separately. The design is free and UI revisions are unlimited on every tier.

Tier	Best For	UI Revisions	Functionality Changes	Price
Autom8 Core	One settled process, run by one team	Unlimited	2 rounds after launch	Starting price
Autom8 Ultra	A process still being shaped, or shared across teams	Unlimited	5 rounds after launch	Quoted per scope
Autom8 Infinite	A business that changes faster than a project can close	Unlimited	Unlimited rounds for 12 months after launch, one round at a time	Quoted per scope

10. Engagement Terms

- **Payment for software builds:** Websites and systems under ₱30,000 are paid 50% on signing and 50% on launch. Builds of ₱30,000 and above are paid 40% on signing, 40% on approval of the working preview, and 20% on launch.
- **Payment for other services:** Creative work is paid 50% on signing and 50% on delivery, except game development (40% / 40% / 20%). Monthly services are billed in advance. Transaction-fee plans are billed monthly in arrears.
- **30-day launch warranty:** Every build includes 30 days of bug fixes after launch at the response times in Section 8, whether or not the Infinite Plan is taken.
- **When a monthly plan ends:** Ending the Infinite Plan or the per-employee plan never stops a client from using its software. Hosting, updates, backups, and support from Autom8 stop, and Autom8 hands over the source code, a full export of the data, and access to all accounts held for the client, so it can run the system itself or with any developer it chooses.
- **Third-party costs:** Domain registration, hosting or storage beyond free tiers, email sending, payment gateway fees, marketplace fees, and other subscriptions are paid by the client directly to the provider, with no mark-up.

- **Typical running costs (approximate, October 2026):** a domain costs about ₱800 to ₱3,000 a year depending on the extension (.com or .ph). Hosting and database cost ₱0 on free tiers for most small businesses, and about ₱1,200 to ₱2,500 a month for busier systems. Email sending is free up to about 3,000 emails a month. Payment gateway fees apply only when a sale is made. The quotation for each project gives an estimate for that system.
- **Training and staff accounts:** Every website and system includes one live training session for the owner and staff (on-site in Metro Manila or by video call) and a written user guide. Staff accounts are included as needed, with no per-user charge, except under the HRIS per-employee plan.
- **Ownership:** The client owns its brand, content, customer data, and design files outright. On final payment, the client receives the complete source code and a perpetual, irrevocable, royalty-free licence to run, host, and modify the software for its own business, with Autom8 or any developer it chooses.
- **Per-employee plan (B2 HRIS):** After the build, Autom8 bills each month per active employee: ₱50 per employee for companies with 50 or more active employees, and ₱70 per employee for companies with fewer than 50, with a minimum of ₱1,500, covering hosting, backups, updates, and support in place of the Infinite Plan. An active employee is anyone with a record in the system that month. If the plan ends, the client keeps using the system under the perpetual licence above.
- **Transaction-fee plans (I1 and I6):** No build fee. Autom8 bills 2% of the completed bookings (I1) or sales (I6) recorded in the system each month, with a minimum of ₱500 and no maximum, covering hosting, updates, backups, and support. The minimum term is 12 months; a business that ends the plan earlier pays the ₱500 minimum for each remaining month. Because the system is provided free, the licence runs only while the plan is active: when the business stops paying, access to the system ends. Autom8 then hands over a full export of the business's own data (customers, bookings, orders, and sales), which always belongs to the business. Autom8 may compare recorded bookings or sales against the business's own records (for example payment provider or bank statements) once a quarter, and bills 2% on any amount that was not recorded. A business can buy the system outright at any time for a flat ₱20,000 (I1) or ₱15,000 (I6) to receive the perpetual licence above and keep using it without the plan.
- **Creative work:** Final designs, models, videos, and game art made to the client's brief belong to the client on final payment. Editable source files are included where the quotation says so. Game code follows the software licence above.
- **What unlimited means:** Unlimited revisions apply to the system being built. A separate standalone application, a native mobile app, or an unrelated business module (for example, adding payroll to a booking system) is a new project with its own scope and fee.
- **Prices:** Prices in this catalogue are starting prices in Philippine pesos, valid until March 31, 2027. The signed quotation and development agreement for each project prevail.

11. Selected Work

Every system is built to order, so no two look or work alike. Screenshots and live demos are on our website under Work.

Project	Type	What It Does
The Bag Archives PH Client project, live	Website, Dashboard	Storefront for a Philippine Coach-resale shop, with PayMongo payments and the admin portal the owner runs inventory, shipping rates, and orders from.
Solandra Demonstration system	Website, Client Portal	Public site and front-desk portal for a six-retreat hotel group, covering destinations, dining, wellbeing, and booking.
Autom8 Campus Site Demonstration system	Workflow System, Portals	School management system for enrollment, grades, clearance, billing, and document requests, with a portal for each of six offices.
Autom8 Diagnostics Lab Demonstration system	Workflow System, Portal	Sample intake, testing, three-stage result release, reporting, and a portal where customers collect their own results.
Autom8 BMIS Demonstration system	Workflow System, Portal	Barangay management system: residents, document requests, grievances, and the service queue on one record.
Autom8 LedgerPulse PH Demonstration system	Dashboard	Accounting and finance dashboard built for Philippine practice: BIR forms, TINs, and local tax codes.

12. Start a Project

The consultation is free, and so is the design that comes out of it. There is no obligation at the end of either. If software is not the right fix for your problem, we will say so.
